Career Objective

I am a passionate and self-motivated MCA student with a strong interest in web development and ai technology. I have hands-on experience in HTML, CSS, JavaScript, PHP, and MySQL, and enjoy building visually appealing and functional web interfaces. As a fresher, I am eager to join a dynamic team where I can contribute to real-world projects, learn continuously, and grow into a skilled and innovative web developer.

Digital Portfolio : <https://aryan-portfolio-web-dev.netlify.app/>

Core Competencies.

Web Designing/Development :, MYSQL

Programming language : Python, Java, C, C++

Software/Tools : WordPress, Microsoft office, Google Workspace, Digital Marketing

Projects

1. React Chat Web Application: [LINK](#)

Tech Stack: React + Vite, JavaScript, CSS, Node.js, Express, Socket.io, Firebase, Cloudinary

- Built a full-stack real-time chat app with Firebase authentication (Email/Password & Google Login).
- Used Socket.io and Firebase for one-to-one messaging, read receipts, typing, and presence indicators.
- Added emoji sharing, reactions, and timestamps.
- Integrated Cloudinary for image uploads in chats.
- Designed an intuitive chat UI with online user visibility and private conversations.
- Managed sessions, real-time data, and user tracking with Firebase.

2. E-commerce Website using Google Sites & Google Workspace: [LINK](#)

Tech Stack: Google Sites, Google Forms, Google Sheets, Gmail, GoogleScript.

- Built an e-commerce site to sell t-shirts and crop tops.
- Collected orders via Google Forms with prefilled product IDs.
- Linked forms to Sheets for automatic order tracking and status updates.
- Managed payments and sent order confirmations through email and WhatsApp.
- Handled approvals, shipping, and delivery tracking using Google tools.
- Showcased low-code order management skills with Google Workspace.
